THE **LIFELINE** BOOST.

THE **ACCESS CONTROL PEDESTAL** MOUNT ACCESSORY

Our best-selling Lifeline Speedlane series of speed gates has been providing welcome and secure access to an area. These turnstiles can now be integrated with virtually any authorisation technology available in the market today without sacrificing aesthetics. The Lifeline Boost access control pedestal mount is superbly coordinated to mount in front of an existing speed gate to house a card reader, card collector, barcode scanner and any number of integration possibilities.

OVERVIEW

Security in buildings is becoming not only an option, but a necessity. As responsible owners and managers of these secured areas, the decision to upgrade existing security to include an additional layer at a certain sensitive point is a hot topic right now. By installing the Lifeline Boost access control pedestal in conjunction with a Lifeline Speedlane speed gate, you can integrate reliable tailgating detection with virtually any type of authorisation solution available in the market today.

LEVEL UP YOUR ENTRANCE WITH TIGHTER SEAMLESS SECURITY

Using modern and intuitive technology, this pedestal mount guides each visitor through to their destination without delay or inconvenience. An array of proven and clear light symbols indicate what to do next, from authorisation steps through to the exit. It is important to ensure authorised access and the variety of options of verification we provide with our pedestal truly give you the ability to suit your unique needs perfectly.

ENDLESS FLEXIBLE COMBINATIONS IN AN EASY 'PLUG-AND-PLAY' PRODUCT

This pedestal mounts gives you the freedom to integrate with your own chosen access control partner, and at the end of the day you can be rest assured that the Lifeline Boost pedestal mount will look like it should have been there all along. Never an afterthought. The pedestal houses a vast assortment of security access integration options and does so in a sophisticated and aesthetic way. Here is where design really meets security. It's amazing what a big impact such a small footprint can have.

The Lifeline Boost access control pedestal is available in 2 models:

1. Standard Premium: Suitable for the integration of a card reader, barcode reader or biometric devices.
2. Card Collector: Suitable to integrate a collector device for visitor management.
